

Granger Public Library 3D Printer Policy

Granger Public Library provides a Dremel 3D45 Printer for 3D printing projects.

3D project printer files will be e-mailed to library staff or brought into the library on a flash drive. The files must be .stl files. Only library staff are allowed to operate the 3D printer. 3D print jobs will be printed in an order determined by library staff; library staff consider the print job size and color when determining the printing order and estimated completion time. Print jobs will be completed when the library is staffed.

Staff members will also determine the feasibility of a print job and reserve the right to refuse any 3D print job. Print jobs may be denied if they cannot be completed when the library is staffed or if the printed design does not fit the size requirements of the printer. Library staff also have the right to limit the number and size of print requests.

Library staff does not guarantee a successful print. The library is not responsible for the subsequent safety of any items made with the 3D printer or its durability after it is printed and successfully removed from the print bed.

Only filament supplied by the library can be used and availability of colors may vary. Prices for projects will be determined by the amount of filament used in one-hundred-gram increments.

3D Printer Pricing:

0-10 grams: \$1

10-20 grams: \$2

20-30 grams: \$3

30-40 grams: \$4

40-50 grams: \$5

Print jobs not picked up within two weeks may be discarded.

3D print jobs must not:

- Be obscene or inappropriate.
- Be unsafe, harmful, dangerous, or pose a threat to the well-being of others.
- Violate any of Granger Public Library's policies.
- Violate another's intellectual property (i.e. be subject to copyright, patent, or trademark protection).
- Be prohibited by local, state, or federal law.

The printed job must be smaller than 10" wide x 6" deep x 6.7" tall (254 mm x 154 mm x 170 mm).
